ADB22X STYLE AIR DISC CALIPERS

DESIGNED TO PROVIDE HIGH PERFORMANCE AND LOWER COST PER MILE

Dual piston design calipers made with premium quality materials extend service intervals and product life

Excellent braking performance for your safety, even in extreme conditions

Provides longer durability at an affordable price, reducing your cost per mile

All calipers are complete assemblies with carriers

ADB PADS & ROTORS

KXT ARAMID FIBER AIR DISC PADS & G3500C GREY IRON ROTORS

AIR DISC PADS

- SilverbackHD KXT Aramid Fiber Xtra Torque Air Disc Pads provide higher torque output, shorter stopping and longer life
 - 14,000 foot pounds of torque - 24% more than industry average
 - 22% shorter stopping distance than federal regulations
 - 30% longer life than industry average
- Aramid fiber material, coupled with MPR resin, withstands temperatures of 1500° F for maximum performance
- Burnish strips for easy and noiseless break in
- FMVSS121 tested and approved
- Designed to resist corrosive road chemicals
- Complete with OE-grade hardware

AIR DISC ROTORS

- High carbon alloy G3500c grey iron provides superior heat dissipation for safer stops
- Precision mill balanced
- Tighter tolerances for higher performance
- Patented Geomet® coated for corrosion protection and long service life
