# AIR DISC CALIPERS

**NO  
CORES**

COMPLETE  
WITH CARRIERS  
AND PUSHER  
PLATES

## WABCO PAN STYLE AIR DISC CALIPERS

### DESIGNED TO PROVIDE HIGH PERFORMANCE AND LOWER COST PER MILE

Single piston design calipers made with premium quality materials extend service intervals and product life.

Excellent braking performance for your safety, even in extreme conditions.

Provides longer durability at an affordable price, reducing your cost per mile.

All calipers are new, complete assemblies with carriers and pusher plates

# ARAMID FIBER PADS HIGH CARBON ALLOY ROTORS 1 MILLION CYCLE TESTED CHAMBERS

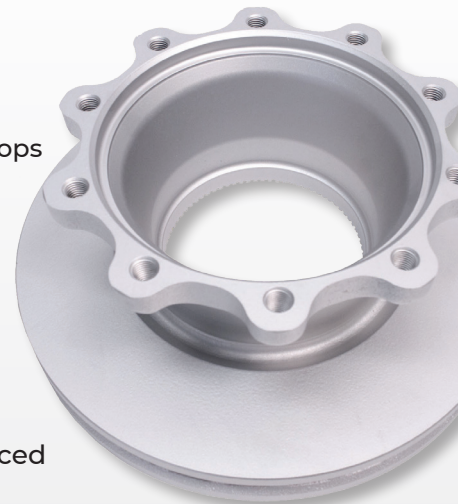

## AIR DISC PADS

- SilverbackHD Aramid Fiber Extra Torque Air Disc Pads provide higher torque output, shorter stopping and longer life
  - 14,000 foot pounds of torque - 24% more than industry average
  - 22% shorter stopping distance than federal regulations
  - 30% longer life than industry average
- Aramid fiber material, coupled with MPR resin, withstands temperatures of 1500° F for maximum performance
- Burnish strips for easy and noiseless break in
- FMVSS121 tested and approved
- Designed to resist corrosive road chemicals
- Complete with OE-grade hardware

## AIR DISC ROTORS

- High carbon alloy G3500c grey iron provides superior heat dissipation for safer stops
- Precision mill balanced
- Tighter tolerances for higher performance
- Patented GEOMET® coated for corrosion protection and long service life

## AIR CHAMBERS

- Double-layer premium diaphragm and reinforced welds for longer life
- 1,000,000 life-cycle tested and approved
- Universal for left and right mounting
- E-coated and zinc plated for corrosion resistance
